
QUALITY POLICY

Cherrie Civil Engineering's focus is delivering a quality product and achieving a high compliance standard. Our goals are to achieve compliance first time, every time and to have continual improvement as a business through leadership and education.

Our approach to quality management is driven by:

- **Leadership** – Our focus is on all our employees being leaders and delivering quality compliance first time, every time. One of our key drivers is to deliver quality in all aspects of our business and this can only be achieved through the leadership of our employees and business partners.
- **Quality Systems** – We will ensure our systems comply through delivering through good governance. Our aim is to have a framework in our Business Management System to set and review to ensure we achieve continual improvement. Our systems complies with the legal and other relevant requirements.
- **Education and Training** – We will endeavour to communicate our Quality systems to all employees and business partners to ensure all people involved are aware and following guidelines. We will continually review and communicate any changes to all employees and partners.
- **Continuous Improvement** – We aim to continually review the efficiency and effectiveness of our quality system. Our goal is to continually improve our performance and ensure quality of systems, service and work are not compromised. This can only be achieved with the other drivers listed above.

Stephen Cherrie
